

SCHEDULE A2 Online Greek Course

Learning Greek online is a great experience!

The A2 OGC lasts 6 weeks. You will work on your own on two units per week. After each unit you will have an online session with your tutor and fellow students (web conference).

The first three days are Taster Days. You will have the time to get familiar with the course online environment, to work on a taster lesson and have a trial online session with your tutor and fellow students. On the fourth day you have to confirm your participation in the course.
